

REDINHA, Portugal

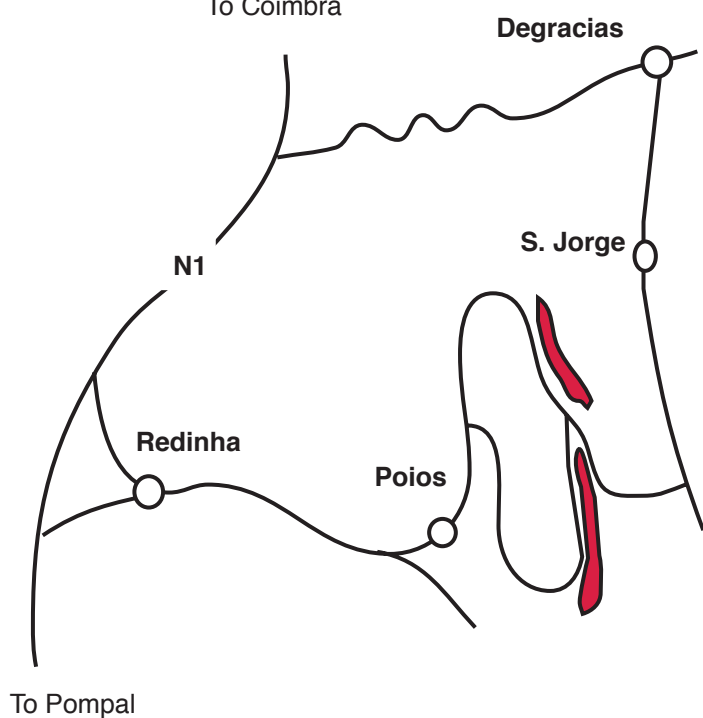

How to go find these crags:

Take the highroad between Lisbon and Oporto that pass near Coimbra and take of in the direction of Pombal before arriving to Coimbra. The village Redinha is near the climbing area in the mountain of Sicó.

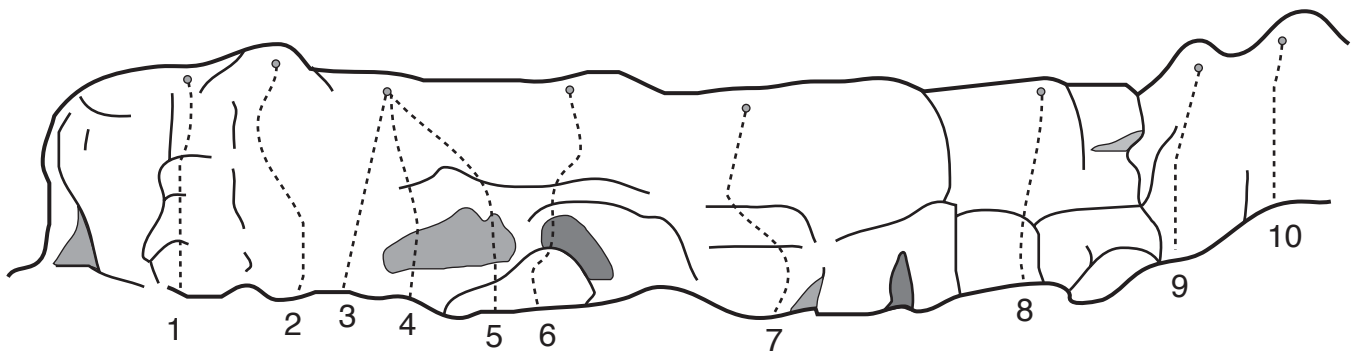

When you leave Pombal on the highroad, look for the secondary road N1 (National road number one) to Coimbra and continue for about 10 Km.

Slow down when you see a petrol station on your left, because after about 100 meters you will find a turn off to the right in the direction of Redinha.

Turn left one km after you have passed the village Redinha to " Poios" which also leads to the mountain top of "Senhora da Estrela" . The crag is near the road and after a short walk you will be by the crag.
